

LATEST RESEARCHES

Smt.Rejani P. - Conducting polymers/inorganic oxide nano composites for photo catalytic degradation of organic dyes.

Dr.Mohanakrishnan M. -Redox chemistry of plant extracts with special reference to the woody plant M. Indica WT. (ongoing)

Dr.Dhanya T.P. – Photocatalytic degradation of organic pollutants using TiO₂ catalysts.(ongoing)

Sri. Vineeth M. – Microwave assisted solvent-free synthesis of Au, Ag and Au-Ag alloy nano particles via green chemical synthetic route.(ongoing)
