

## EXTENSION ACTIVITIES

The college is located in a region with water scarcity. The department had organised extension programs on water analysis in 2014-15 and 2015-16. The water samples from bore wells and open wells were tested for their quality parameters. In 2016 March, an awareness program on clean water was conducted for both the students and the local people. The program entitled 'Green water, clean water' in which Sri. Satheesan Master, Environmental Activist delivered an awareness lecture for the public.
