

DEPARTMENT OF CHEMISTRY N S S COLLEGE, OTTAPALAM

REACCREDITED WITH 'A' GRADE BY NAAC

International Webinar on

Fundamentals of Organometallic Chemistry and its Future Scope

Resource Person

March 12, 2021
4.00-5.00 pm

Dr. Anokh K. Nair
Postdoctoral Fellow
Department of Chemistry
National Tsing Hua University
Hsinchu, Taiwan-30013

Dr. Rajesh R. (Principal) Mrs. Manju B. L. (IQAC Coordinator) Dr. Dhanya T. P. (HOD, Chemistry) Dr. Jaimy K. B. (Programme Coordinator)

Organometallic chemistry is an interdisciplinary area between inorganic and organic chemistry. Organometallic compounds have played a critical role in catalysis, organic synthesis, as precursors in the preparation of nanomaterials and microelectronic materials such as thin films in integrated circuits. In short, organometallic chemistry is an unavoidable branch in fundamental sciences.
