RESEARCH POLICY

N. S. S. College, Ottapalam, is dedicated to fostering a research culture among its faculty and students since fundamental, long-term research lays the groundwork for the Institution's future growth. The research policy seeks to identify areas of academic, practical, and socially relevant study. The goal of the research policy is to analyse, comprehend, and effectively address all obstacles that arise in the process of conducting high-quality research.

Objectives:

1. To improve the college's institutional capacity for budgetary, operational, technical, and strategic planning and oversight of all research operations.
2. To ensure research quality, integrity, and ethics and establish and foster a research culture among faculty and students.
3. To promote and enable the presentation of research findings at academic gatherings such as workshops, seminars, and conferences, as well as the publication of research findings in reputable academic national and international journals.
4. To identify and inform scholars about relevant research opportunities made public by various government, academic, and research institutions.
5. To encourage multidisciplinary research, benefitting the neighbouring community, and span multiple knowledge fields.
6. To make it easier to offer advice for career advancement, technical help, and financial support.
7. To find and create connections, such as Memorandums of Understanding (MoUs) for long term partnerships with national and international research groups, to expand the range of research opportunities accessible to the faculty and students.
